SCIENCE LABORATORY

“Promoting Justice Through Science”

PRESS RELEASE

The Guyana Forensic Science Laboratory noted the contents of a social media post relating to the existence of a certain evidence sample.

The Guyana Forensic Science Laboratory hereby clarifies that all the samples received were appropriately analyzed and the resulting evidence has been provided to the Guyana Police Force.

Given the fact that the analyses identified the condition and prevailing environment of the circumstances of the event, there is no possibility that any subsequent chain of custody issue could affect the analytical reliability relating to this case.
